Disputed property outlined with black lines. This is overhead photo
The southwestern end looking northwest. of the disputed tract. This
picture is from Google Earth. One can see that most of the disputed
property has been cleared of brush and debris. The southern end has
been cleaned down to dirt

disputed property outlined with black lines. This is the northern end of the disputed tract. Please note multiple boats, trailers, tanks, and vehicles are found on the disputed property. Because the view is an overhead view, it's difficult to tell that the northern end is primarily an elevated hill. At the lower end of the picture, where it appears that the dirt is colored a dark color is the beginning of the area of all vegetative removal.

An aerial photograph of a river. A long, narrow tract of land is outlined with black lines. The tract is situated in the middle of the river, with buildings and other structures on either side. The text is overlaid on the photograph, pointing to the outlined tract.

Adams Bayou

Adams Bayou

This is an overhead view from Google Earth bout a year after purchase. The black line delineates the approximate boundary of the disputed purchase. As one can see, the boats have not been moved in. The property had basically removed all trees and brush but not all of the southwestern portion had been straight down to dirt.

This picture is looking across the Bayou at the northwestern edge of the disputed track. The purpose of the picture is for the viewer to see the jungle like condition of the island just before purchase.

This a view from the Western side of the property. One can see how the Western peninsular part has been cleared of trees and remains clear in 2013.
